EXECUTIVE CHAIRMAN'S REPORT

Euroz Limited reported a significant improvement in profitability over the past year with a net profit after tax (attributable to members) of \$31.3 million for the financial year ended 30 June 2018, representing a 61% uplift on the previous years' \$19.4 million result.

The Directors declared a final fully franked dividend of 9.25 cents per share (cps) which combined with the interim dividend of 1.75 cps brought the full year dividend to 11 cps (previous year 7.25 cps). This is a 52% increase on the previous full year dividend.

The group experienced broadly similar trading conditions to the previous year with improved performance fees being the driver for increased profitability and dividends.

An improvement in the value of our various investments has seen our total cash and investments increase to \$139.4 million (before final dividend payment).

Group Funds Under Management (FUM) has increased by 21.3% to \$1.46 billion from \$1.2 billion last year and we will continue to focus on building these recurring revenue streams.

We provide specific business updates as follows:

Euroz Securities

Solid commodity prices and an improving Western Australian economy have driven another strong contribution from our securities business with brokerage revenues up slightly from the previous year. A strong second half equity capital market contribution, with approximately \$837 million of capital raisings completed this financial year, translated to similar overall corporate finance revenues to the previous year.

Our strategy to increase recurring revenues in our Securities business was re-affirmed with FUM increasing by 27% to \$301m this financial year.

Entrust Private Wealth Management

Entrust Private Wealth Management Pty Ltd (Entrust) was acquired in July 2015 to provide a wealth management platform for all of our businesses. Entrust has reported a pleasing improvement in profitability versus the previous year driven by cost savings and FUM growth.

For perspective, we are pleased to note that Entrust has grown FUM organically from \$565 million at acquisition to \$801 million at 30 June 2018 (42% growth over 3 years). When combined with our Euroz Securities FUM of \$301 million this creates a business currently managing \$1.1 billion for high net worth clients.

Entrust will continue to grow organically whilst we also attempt to attract new advisers and pursue smaller bolt on acquisitions.

Westoz Funds Management

The Listed Investment Companies Westoz Investment Company Limited (**Westoz**) and Ozgrowth Limited (**Ozgrowth**) are strongly connected to their investment universe of Western Australian connected companies.

Strong investment performance achieved from both Westoz and Ozgrowth with respective investment performance of 39.1% and 30.7% for the financial year. These excellent returns enabled both funds to provide substantial end of year performance fee income to the manager. Over the past 13 years Westoz and Ozgrowth have returned \$147 million in fully franked dividends to their shareholders.

Our significant long term investments in Westoz and Ozgrowth will continue to have a material effect on our reported profitability. During the past financial year the higher share prices of Westoz and Ozgrowth contributed \$7.4 million after tax to our Group profitability (on a non-cash basis).

Prodigy Investment Partners

Prodigy Investment Partners Limited (Prodigy) was established in July 2014 as a platform to create a quality, multi boutique funds management business. Our two existing boutique partnerships have grown to three with the post balance date announcement of a partnership with Equus Point Capital Pty Ltd (Equus). We believe this Australian focussed market neutral strategy will find good support in the growing alternative investment segment in which we are now developing a number of strong brands.

Our two existing partnerships report the following progress for the financial year:

• Flinders Investment Partners

Strong gross investment performance of 34.2% for the financial year and performance since inception of 18.3% p.a. strengthens our commitment to this partnership. Current FUM of \$18 million and as Flinders approach a solid 3 year track record we are pleased to see increased investor engagement and believe the market will better reward their strong investment returns with improved inflows in the coming 12 months.

Dalton Street Capital

Solid gross investment performance of 18.3% for the financial year and performance since inception of 14.8% p.a. Strong support from early adopter research and platform providers continue to underpin consistent monthly FUM growth to \$89 million at 30 June 2018 and we are excited about the FUM growth prospects for this two year old partnership.

On 16 August 2018 Euroz announced that it had entered into a new partnership with Equus through the Prodigy joint venture. Equus is a market neutral strategy focusing on Australian equities. We believe it is the first of its kind in the Australian market. Equus will target a return of 7.5%-12.5% p.a. above benchmark using a systematic approach to harvest both positive and negative momentum in a risk controlled environment. The Equus team led by Co-Founders and Portfolio Managers Rob Stewart and Toby Masters have been successfully managing this specific strategy for the last 18 months.

Summary

Euroz Limited has pursued a very deliberate and incremental diversification strategy over the past 4 years which combined with a positive resources market has delivered an excellent result to all shareholders this year. Your Directors are very pleased this broad contribution from our various businesses has enabled us to record the best full year dividend since 2011.

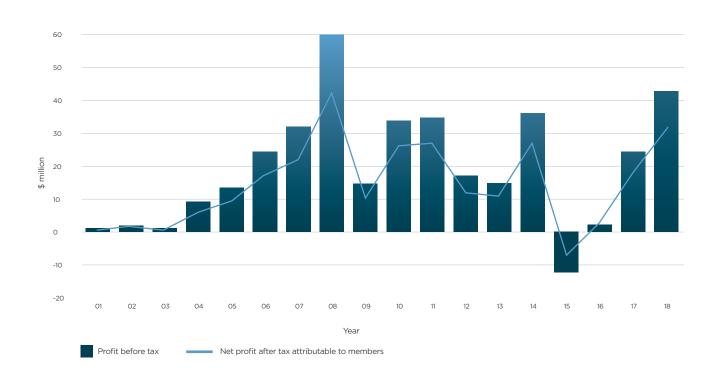

This result is an accumulation of the very significant efforts of our greatest asset, our staff, who as our largest shareholders remain committed to growing this proudly Western Australian diversified financial services company.

Euroz Limited has now paid \$211 million in fully franked dividends to shareholders across our 18 year history.

MANAGING DIRECTOR'S REPORT

An 18 year history of providing Research, Private Client advice, Institutional Sales and Corporate Finance services Euroz Securities Limited (**ESL**) provides Stockbroking, Corporate Finance and wealth management services and has an 18 year history of providing Research, Private Client advice, Institutional Sales and Corporate Finance services

During the 2017/18 Financial Year, ESL continued to leverage an improved Western Australian economic environment, along with sustained strength in commodity prices and mining and related services sectors, to report a Net Profit after Tax to the group of approximately \$11.8 million, significantly higher than the previous year's contribution of \$9.2 million.

Brokerage levels across both our Institutional and Private Client desks improved over the period, as did our Funds under Management (**FUM**) growth within ESL which finished the period at \$301 million.

Likewise, we saw a continued positive level of corporate transactions undertaken during the year, with approximately \$837 million of new equity raised for corporate clients over the period, similar to last year's raisings totalling \$861 million

This solid result for the year validated our long term strategy, to leverage deal flow from WA related companies through high quality research, dealing and corporate finance services.

To complement this strategy we are fortunate to have the services of a number of highly skilled investment professionals, most of whom have been long standing members of our team and are themselves significant shareholders of Euroz Limited. This alignment will continue to deliver results for shareholders over future years.

WEALTH MANAGEMENT

Entrust Private Wealth Management

Entrust Private Wealth Management Pty Ltd (Entrust) commenced in 2002 and provides its clients with financial planning and tailored investment advice. Entrust has client Funds Under Management (FUM) of \$801m at 30 June 2018.

Entrust was acquired by Euroz Limited in July 2015. Entrust employs 20 staff, including 10 advisers, 2 para-planners and a portfolio administration team.

During the 2018 financial year (FY18) the management team focus was on growing the FUM and we are pleased to report growth in FUM of 12.3% for the financial year.

Through a combination of revenue growth and strong focus on cost reduction, Entrust reported a significant improvement in profitability versus the prior year. We have been progressing the roll out of our private wealth offering across Euroz Securities Limited (Euroz Securities), progressing organic growth opportunities in the High Net Worth (HNW), Not-for-Profit and Self-Managed Super Fund (SMSF) sector. Entrust's primary focus is to continue organic growth opportunities in the HNW and Not-for-Profit sector and leverage the existing capability in the SMSF sector, the fastest growing component of the Australian superannuation system.

We continue to pursue bolt on acquisitions and have evaluated numerous adviser acquisition opportunities during the period but sellers' price expectations remain too high in our view.

It manages funds under mandate from two listed investment companies; Westoz Investment Company Limited (**WIC**) and Ozgrowth Limited (**OZG**). WIC commenced its investment activities in May 2005, with OZG commencing in January 2008. Both investment mandates focus on the generation of the target level of returns from investment in small to mid-cap ASX listed securities, generally with a connection to Western Australia. Both portfolio's have produced returns in excess of comparable equity benchmarks with investment performance of 39.1% (**WIC**) and 30.7% (**OZG**) for the financial year.

WIC and OZG have paid \$147 million in dividends to shareholders since inception.

Directors Profiles

Philip Rees Executive Director

In August 2018 Mr Philip Rees transitioned to a Non-Executive Director role. Prior to this, Mr Philip Rees was an Executive Director of Westoz Funds Management Pty Ltd and was responsible for the operation and development of the manager's business. Mr Rees has worked in a range of roles focused on Australian investment markets for the last 30 years. He has previously managed large institutional investment portfolios and developed several early stage investment opportunities until he joined Westoz in April 2005. Mr Rees remains actively engaged within WFM and is on the Investment Committee.

Dermot Woods Executive Director

Mr Dermot Woods is an Executive Director of Westoz Funds Management Pty Ltd and oversees the construction of its investment portfolios.

Mr Woods joined Westoz Funds Management Pty Ltd in 2007. He has previously worked as an industrial analyst for Euroz Securities Limited and prior to this role, as a fund manager specialising in European equities.

FUNDS MANAGEMENT

Prodigy Investment Partners Limited

Prodigy Investment Partners Limited (Prodigy) is a multi-boutique investment management business. Prodigy is an 80/20 partnership between the Euroz Limited and Mr Stephen Tucker.

Prodigy looks to partner with talented investment management executives in an innovative partnership business model. Prodigy's focus is on creating boutiques that employ limited capacity, high value adding strategies. We believe these strategies are increasingly attractive to the market, and with limited capacity, allow us to include a performance based component in the pricing.

During the 2018 financial year, Prodigy had two partner boutique managers: Flinders Investment Partners Pty Ltd (Flinders) and Dalton Street Capital Pty Ltd (Dalton Street).

Flinders is a specialist Small Companies investment manager, with principals Dr Andrew Mouchacca, Richard Macdougall and Naheed Rahman. Significant progress has been made in positioning Flinders to gain market share in specific retail and institutional markets over the past year.

Dalton Street is a specialist Absolute Return investment manager, established in June 2016. Dalton Street Capital is overseen by its principal Portfolio Manager, Alan Sheen, who was previously at Credit Suisse. Dalton Street's approach is predominantly quantitatively based. Alan has successfully run this strategy for over 10 years, delivering strong absolute returns, with low correlation to traditional asset classes. We believe that this is an attractive strategy in the high net wealth and retiree markets.

On 16 August 2018 Prodigy and Euroz announced that they had entered into a new partnership with Equus Point Capital Pty Ltd (**Equus**) through the Prodigy joint venture. Equus is a market neutral strategy focusing on Australian equities. We believe it is the first of its kind in the Australian market. Equus will target a return of 7.5%-12.5% p.a. above benchmark using a systematic approach to harvest both positive and negative momentum in a risk controlled environment. The Equus team led by Co-Founders and Portfolio Managers Rob Stewart and Toby Masters have been successfully managing this specific strategy for the last 18 months.

Stephen Tucker Executive Chairman

Steve has over 25 years' experience in financial services. Steve started his career with MLC, worked in superannuation, ran MLC's advice networks, led MLC Investments and finally took over as CEO in 2004. Steve was appointed to the Group Executive of NAB in 2009, responsible for MLC and NAB Wealth. Most recently Steve founded Prodigy, where he is Executive Chairman. Steve is also Independent Chairman of Koda Capital and a Non-Executive Director of The Banking and Finance oath.

Lewis Bearman Partner and Chief Operating Officer

Lewis brings over 30 years of financial services experience. He held senior roles at Perennial Investment Partners (2003 to 2014), including Chief Operating Officer and Chief Executive Officer. Lewis spent 17 years with County Investment Management (later becoming INVESCO). Lewis has held senior positions in operations, funds management, and various other teams. Lewis joined Prodigy in 2015 as Chief Operating Officer and is a Director of Prodigy. Aman Kashyap Wholesale Sales Director

Aman brings over 17 years of financial services experience specialising in asset management sales. During this time, he has held senior positions in distribution at Ophir Asset Management, NAB Asset Management and ANZ Wealth where his key focus was developing and executing the sales strategy for asset management in the institutional, HNW and retail investment markets. Aman joined Prodigy in early 2017 as Wholesale Sales Director and is responsible for fund raising efforts in the Institutional, Private Wealth and Family Office markets for Prodigy boutique partners.

Guy Ballard Director Distribution

Guy has worked in financial services for over 17 years. In this time he held senior distribution roles with both BT Financial Group (2001 to 2005) and MLC (2006 to 2016) where his key focus was developing and executing the sales strategy for the asset management, platform and margin lending businesses targeting the Independent Financial Advice market. Guy joined Prodigy in 2016 as Director of Distribution and is responsible for funds under management growth across our boutiques.

FUNDS MANAGEMENT

Flinders Investment Partners Pty Ltd

Andrew Mouchacca Partner and Portfolio Manager

Andrew began his career in investment management in 1999. Before establishing Flinders Investment Partners Pty Ltd, Andrew was Senior Investment Manager with the institutional focused fund manager Contango Asset Partners (1999 to 2014). He was the Portfolio Manager of the Small Companies Fund (2009 to 2014) and specialised in the analytical coverage of a range of sectors. His analytical experience has focused on the emerging companies through his involvement in dedicated products in both the small and microcap universe.

Richard Macdougall Partner and Portfolio Manager

Richard began his career in equity markets in 1985. Before establishing Flinders Investment Partners Pty Ltd, Richard was a Partner and Portfolio Manager with the Australian Equities boutique Perennial Growth (2004 to 2015). Prior to this, Richard was a founding executive of Contango Asset Management and a Director of Salomon Smith Barney Australia. He has spent time offshore including roles as Head of Research at ANZ Securities New Zealand and Managing Director of ANZ Securities UK.

Naheed Rahman Partner and Deputy Portfolio Manager

Naheed began his career in investment management in 2006. Prior to joining Flinders Investment Partners Pty Ltd, Naheed was an Investment Analyst at Contango Asset Management for over seven years, working closely with Andrew Mouchacca, where he covered several sectors primarily with an emerging companies focus. He began his career at Warakirri Asset Management as a Portfolio Analyst, conducting fund manager research as well as the dealing of securities.

Dalton Street Capital Pty Ltd

Alan Sheen Partner and Portfolio Manager

Alan is a co-founder of Dalton Street Capital Pty Ltd. Alan was previously Head of Proprietary Trading for Credit Suisse Australia managing systematic investing and trading across the Asia Pacific region. Prior to this Alan's roles included Portfolio Manager at AMP Capital Investors, Chief Investment Officer at Challenger Ltd and Chief Investment Officer and Managing Director at Austock Asset Management. In these roles Alan has been responsible for managing very large portfolios and businesses. Alan commenced trading equities, futures and options in 1996.

Nick Selvaratnam

Nick is a co-founder of Dalton Street Capital Pty Ltd. Nick was previously Managing Director and Head of Equities, most recently with investment bank Credit Suisse. Nick has over 27 years' experience in the investment banking field - directly participating in, and successfully managing, top-tier teams across equities research, sales & trading, derivatives, prime services and equity capital markets. Nick's experience prior to investment banking includes 8 years as a Chartered Accountant in Australia and the UK. He graduated with an Honours degree in Civil Engineering.

EUROZ CHARITABLE FOUNDATION

Euroz are proudly West Australian focused and believe we have an obligation to give back to Western Australian charities in need.

In 2006, the Euroz Charitable Foundation was formed in a Private Ancillary Fund (PAF) structure through which Euroz could make donations, invest these funds and make distributions to worthy charities and contribute to the broader community.

The businesses within Euroz and many of our staff members have made consistent donations to the Foundation.

The funds of the Foundation continue to contribute and make a difference to Western Australian charities. During the past 12 years, the Euroz Charitable Foundation has donated in excess of \$1,208,950 to a broad range of charities in Western Australia. In addition to financial support, employees of the Euroz Group are encouraged to volunteer their time to charities in and around their communities.

The Euroz Charitable Foundation has been delighted to support the following charities, amongst many others over the past years:

West Australian symphony Orchestra

4. REVIEW OF RESULTS

The consolidated group has a consolidated pre-tax profit of \$42.9 million (2017: \$24.1 million) for the year ended 30 June 2018.

The consolidated net profit after tax attributable to members was \$31.3 million compared with the 2017 year consolidated net profit after tax attributable to members of \$19.4 million. This result represents basic earnings per share of 19.91 cents (2017: 12.30 cents).

The Directors have declared a final dividend of 9.25 cents per share fully franked which combined with the interim dividend of 1.75 cents per share, represents a total dividend of 11 cents per share fully franked.

5. REVIEW OF OPERATIONS

	Segment Revenues		Segment Results		
	2018 2017		2018	2017	
	\$	\$	\$	\$	
Stockbroking & Corporate Finance Activities	41,537,285	38,649,093	10,153,858	7,905,662	
Principal Trading	10,149,130	8,126,664	803,614	548,044	
Funds Management	13,626,793	3,406,028	3,735,118	(1,817,750)	
Investment Income	4,177,883	3,208,618	12,525,095	9,322,250

	78,435,780	61,499,769	29,333,325	17,931,362	

The major driver of this improved result is due to increases in share prices for Westoz Investment Company Limited (**WIC**) and Ozgrowth Limited (**OZG**), performance fee income, Equity Capital Markets (**ECM**) activity and growth in group Funds Under Management (**FUM**). Euroz Securities Limited (**Euroz Securities**) business raised \$837 million of new equity this financial year for our corporate clients. WIC and OZG have reported gross investment performance for the year of 39.1% and 30.7% respectively. The mark to market share prices of these companies can have a major accounting effect on our reported profits and this year have contributed approximately \$7.4 million after tax to our headline profitability. Group FUM has increased by 21.3% to \$1.46 billion as at 30 June 2018 from \$1.2 billion as at 30 June 2017.

6. OPERATING AND FINANCIAL REVIEW

The purpose of this review is to set out information that shareholders may require to assess Euroz's operations, financial position, business strategies and prospects for future financial years. This information complements and supports the report presented herein.

7. DISCLOSURE OF OPERATIONS

The consolidated group is principally involved in the following activities:

- (a) Stockbroking & Corporate Finance Activities;
- (b) Funds Management;
- (c) Investing; and
- (d) Wealth Management.

Our operations are conducted over several locations with Perth, Western Australia (WA) being our main office. Other offices are in Sydney, New South Wales and Melbourne, Victoria focusing on Funds Management opportunities. Details of our operations are outlined below:

(a) Stockbroking & Corporate Finance Activities

The Euroz Securities operations comprise 4 main divisions as follows:

- i Equities Research
 - Highly rated research from market leading research team of 6 analysts
 - Our views are highly regarded by Australian and international institutional investors
 - Access to the latest online news and financial information
 - · Based on fundamental analysis, strict financial modelling and regular company contact
 - Goal: Identify and maximise equity investment opportunities for our clients
 - Approach: Intimate knowledge of the companies we cover
 - Coverage: Broad cross section of mostly WA based industrial & resource companies
 - Research Products:
 - Morning Note: Overnight market updates
 - Weekly Informer: Compilation of all company reports throughout the preceding week
 - Quarterly and / or Semi-annual Review: Regular coverage on mid-cap companies in book format
 - Company Reports: Detailed analysis on companies as opportunities emerge

ii. Institutional Dealing

- One of the largest institutional small to mid-cap dealing desks in the Australian market
- Extensive client base of Australian and International institutional investors with strong relationships with small company fund managers
- Distribution network strength long standing relationships with major institutional investors in the small to mid-cap market
- Western Australia's geographic isolation makes it difficult for institutional investors to maintain close contact with companies based here - investors can rely on our "on the ground" information
- Institutional dealing team "highly focused" on providing the following services:
 - Quality advice and idea generation
 - Efficient execution
 - Regular company contact
 - Site visits
 - Roadshows

(b) Funds Management

Westoz Funds Management Pty Ltd (**WFM**) is responsible for managing FUM of \$252 million (2017: \$202 million). It manages funds under mandate from two listed investment companies; Westoz Investment Company Limited (**WIC**) and Ozgrowth Limited (**OZG**). Both companies have enjoyed competitive portfolio returns since inception.

WIC commenced its investment activities in May 2005, with OZG commencing in January 2008. Both investment mandates focus on the generation of the target level of returns from investment in small to mid-cap ASX listed securities, generally with a connection to Western Australia. Both portfolios have produced returns in excess of comparable equity benchmarks.

WIC and OZG have now paid \$147.5 million in dividends to shareholders since inception.

Prodigy Investment Partners Limited (**Prodigy**) is a funds management partnership with Euroz owning 80% and Mr Steve Tucker, Executive Chairman, owning 20%. The first boutique funds management partnership, Flinders Investment Partners Pty Ltd (**Flinders**) was launched in 2015 via the Flinders Emerging Companies Fund. The second boutique, Dalton Street Capital Pty Ltd (**Dalton**) was launched in 2016 via the Dalton Street Absolute Return Fund. A third boutique, Equus Point Capital Pty Ltd (**Equus**) is a market neutral strategy which was announced post balance date on 16 August 2018.

(c) Investing

Euroz Limited owns significant shareholdings of 40.58% in Westoz Investment Company Limited (WIC.ASX) and 27.3% in Ozgrowth Limited (OZG.ASX). The investment focus of these funds is on small to mid-cap ASX securities with a general connection to Western Australia.

Euroz Limited has also invested directly in units in the Flinders Emerging Companies Fund and Dalton Street Absolute Return Fund.

Directors' Report (Cont'd)

For the year ended 30 June 2018

7. DISCLOSURE OF OPERATIONS (CONT'D)

(d) Wealth Management

In July 2015, Euroz Limited acquired Entrust Private Wealth Management Pty Ltd (**Entrust**) which has a 15 year track record as a leading wealth management business. The strategy in acquiring Entrust was to leverage an established wealth management business with long term ongoing revenues as a platform for further acquisitions and organic growth. The past year has seen further integration of these operations with the rest of our businesses to realise operational synergies and develop stronger links with our stockbroking operations.

Entrust has a significant high net worth client base with FUM of \$801 million (2017: \$713 million).

8. DISCLOSURE OF OPERATIONS - PROFIT

Net profit after tax attributable to members was \$31.3 million compared to \$19.4 million in the 2017 financial year.

9. DISCLOSURE OF OPERATIONS - SALES

Revenue has increased by 27.5% to \$78.4 million from \$61.5 million. The group experienced broadly similar trading conditions to the previous year with significantly improved performance fees being the driver for increased profitability and dividends.

(a) Stockbroking & Corporate Finance Activities

Stockbroking and corporate finance revenue was up by 7.5% to \$41.5 million from \$38.6 million. Solid commodity prices and an improving Western Australian economy have driven another strong contribution from our securities business with brokerage revenues up slightly from previous year. Euroz Securities managed 24 (2017:22) ECM transactions this year raising \$837 million (2017: \$865 million).

(b) Principal Trading

Revenue from Principal Trading increased by 24.9% to \$10.1 million from \$8.1 million.

(c) Funds Management

Revenue from Funds Management increased by 300.1% to \$13.6 million from \$3.4 million predominantly as a result of performance fees received from Westoz managed funds and also in line with an increase in FUM.

(d) Investment Income

Investment income increased by 30.2% to \$4.2 million from \$3.2 million as a result of increased dividend income from our investments.

(e) Wealth Management

Wealth management revenue increased by 10.3% to \$8.9 million from \$8.1 million. This increase is due to increasing FUM.

10. DISCLOSURE OF BUSINESS STRATEGIES AND PROSPECTS - GROWTH

Solid commodity prices and an improving Western Australian economy have driven another strong contribution from our securities business with brokerage revenues up slightly from previous year. A strong second half equity capital market contribution, with approximately \$837 million of capital raisings completed this financial year, translated to similar overall corporate finance revenues to the previous year. Westoz Funds Management has provided solid investment returns for its two listed investment company mandates to generate improved management and performance fees.

In July 2015, Euroz acquired Entrust which has now been fully integrated alongside Euroz Securities Private Client operations and we believe that both businesses will continue to cross-pollinate their strengths and grow recurring revenue.

During the financial year Prodigy had partnerships with two separate boutique funds, Flinders and Dalton for both retail and wholesale investors. Our long term strategy is for these boutique funds to provide a steady base of diverse ongoing management fee revenues with potential performance fee upside. Flinders had a strong gross investment performance of 34.2% for the financial year which strengthens our commitment to this partnership. Current FUM of \$18 million and a solid 3 year track record has increased investor engagement and we believe the market will better reward their strong investment returns with improved inflows in the coming 12 months. Dalton Street Capital aims to deliver absolute returns in all market conditions and has reported solid gross investment performance of 18.3% for the financial year and performance since inception of 14.8% per annum. Strong support from early adopter research and platform providers continue to underpin consistent monthly FUM growth which was \$89 million at 30 June 2018 and we are excited about the FUM growth prospects for this two year old partnership.

In August 2018, Euroz and Prodigy announced the launch of its third boutique funds management partnership, Equus a market neutral strategy focusing on Australian equities.

We continue to implement our modest diversification strategy and are pleased to pay 11 cents per share in fully franked dividends for the year, our best full year dividend since 2011.

The Directors believe that Euroz Group has laid the foundations for our strategy to build a more consistent base of underlying recurring revenues through our growing wealth and funds management businesses whilst still retaining the transaction based upside of our traditional stockbroking business.

For the year ended 30 June 2018

11. DISCLOSURE OF BUSINESS STRATEGIES AND PROSPECTS - MATERIAL BUSINESS RISKS

The past year continues the trend of extremely volatile trading conditions. Like many businesses we have experienced solid trading months which are often then undermined by any combination of uncertainties. These may take the form of economic concerns, political instability, inflation and growth concerns, and / or alternating commodity price movements.

Given this backdrop and the increasingly competitive landscape it has created, we are pleased with our overall results for the financial year. Our entire team has worked hard to manage our costs and generate profits and dividends for shareholders.

12. FINANCIAL POSITION

The net assets of the consolidated group have increased to \$130.5 million at 30 June 2018 from \$119.3 million at 30 June 2017.

The Company and consolidated group's financial performance has enabled it to continue to pay dividends to shareholders during the year while maintaining a healthy working capital ratio. The consolidated group's working capital, being current assets less current liabilities, is \$30.7 million at 30 June 2018 (30 June 2017: \$30.9 million).

During the past ten years the Company has invested in expanding each of its business units to secure its long term success. In particular it has increased its strategic investments in the investment products of Westoz Funds Management Pty Ltd, our multi boutique Prodigy business and Entrust as a platform for our future wealth management ambitions.

Our group remains in an extremely sound financial position with cash and investments of \$139.3 million (including the Pershing security deposit of \$5 million) as at 30 June 2018. We have a Net Tangible Assets (**NTA**) of 77¢ per share and no debt. Euroz has a proud history of consistent profits and dividends having paid a total of \$211 million in fully franked dividends in every consecutive half year for the past 18 years.

The Directors believe the Company is in a strong and stable financial position to expand and grow its current operations.

	2018	2017
	Cents	Cents
Earnings per share		
Basic earnings per share	19.91	12.30
Diluted earnings per share	19.42	12.03

13. DIVIDENDS - EUROZ LIMITED

Dividends paid or provided for during the financial year were as follows:

	2018	2017
	\$	\$
Interim ordinary dividend of 1.75 cents (2017: 1.75 cents) per fully paid ordinary share was paid on 2 February 2018.	2,817,314	2,817,314
Provision for final ordinary dividend for 30 June 2018 of 9.25 cents (2017: 5.5 cents) per fully paid ordinary share paid on 6 August 2018.	14,891,518	8,854,416
	17,708,832	11,671,730

Of the total dividends paid during the year \$22,110 (2017: \$34,246) was paid to the Euroz Share Trust and is undistributed. Therefore, it has been eliminated on consolidation.

14. SIGNIFICANT CHANGES IN THE STATE OF AFFAIRS

There have been no significant changes in the state of affairs of the consolidated group during the year other than the acquisition of 1,659,000 treasury shares on-market and the vesting of 884,579 shares under the Performance Rights Plan.

15. SHARE OPTIONS

There were no options on issue at 30 June 2018 and 30 June 2017.

16. ENVIRONMENTAL REGULATION

The consolidated group is not subject to significant environmental regulation in respect of its operations.

Directors' Report (Cont'd)

For the year ended 30 June 2018

17. EVENTS AFTER REPORTING DATE

In August 2018, Euroz and Prodigy announced the launch of its third boutique funds management partnership, Equus, a market neutral strategy focusing on Australian equities.

Other than this matter, the Directors are not aware of any other matter or circumstance subsequent to 30 June 2018 that has significantly affected, or may significantly affect:

- (a) the consolidated group's operations in future financial years; or
- (b) the results of those operations in future financial years; or
- (c) the consolidated group's state of affairs in future financial years.

18. LIKELY DEVELOPMENTS AND EXPECTED RESULTS OF OPERATIONS

The Directors are confident that a strong statement of financial position and established business platforms will support the Company in increasingly volatile market conditions.

Further information on likely developments in the operations of the consolidated group and the expected results of operations have not been included in this report because the Directors believe it would be likely to result in unreasonable prejudice to the consolidated group.

21. REMUNERATION REPORT (AUDITED)

This Remuneration Report outlines the Key Management Personnel (**KMP**) remuneration arrangements of the Company and the consolidated group in accordance with the requirements of the Corporations Act 2001 and its regulations. For the purposes of this report KMP of the consolidated group are defined as those persons having authority for the strategic management and direction of the consolidated group including any Director (whether executive or otherwise) of the parent Company.

KEY MANAGEMENT PERSONNEL REMUNERATION

Remuneration packages are set at levels that are intended to attract and retain executives capable of managing the consolidated group's operations. The board undertakes regular reviews of its performance and the performance of the board against expectations made at the start of the year. Performance related bonuses are available to KMP based on their performance and that of the Company.

REMUNERATION POLICY

The remuneration policy has been designed to align the interests of shareholders, Directors and executives. Euroz remunerates its Directors, executives and other employees by way of a fixed base salary, commission and a combination of short and long term incentives. The Company believes this policy to have been effective in increasing shareholder wealth since inception.

The following table shows the gross revenue, profits and dividends for the last five years for the listed entity, as well as the share price at the end of the respective financial years.

	2014	2015	2016	2017	2018
	\$	\$	\$	\$	\$
Revenue (including gains on fair value movements in investment entities)	78,176,940	38,898,781	41,924,867	70,372,892	92,087,944
Net profit/(loss) after tax attributable to members	26,547,100	(7,039,395)	3,560,417	19,371,167	31,263,812

Dividends paid or recommended	16,261,272	7,886,167	6,438,992	11,671,730	17,708,832

The objective of the Company's remuneration framework is to ensure reward for performance is competitive and appropriate to the results delivered. The Board / Remuneration Committee ensure that executive rewards satisfy the following key criteria for good reward governance practices:

- · competitiveness and reasonableness
- acceptability to shareholders
- performance linked
- transparency
- capital management

Directors' Report (Cont'd)

For the year ended 30 June 2018

REMUNERATION REPORT (AUDITED) (CONT'D)

REMUNERATION POLICY (CONT'D)

Directors' fees

No Directors fees are paid to Executive Directors.

Non-Executive Directors are paid a fixed base salary and superannuation for their role on the Board.

Base pay

All Directors and executives are offered a competitive base salary and superannuation. Base pay for senior executives is reviewed semi-annually by the Remuneration Committee to ensure it is competitive with the market. Base pay is also reviewed upon promotion or additional responsibilities.

There is no guarantee of base pay increases fixed in any senior executive or Directors contracts.

Executives are offered a competitive salary that comprises of a base salary inclusive of superannuation and a combination of some of the following short term incentives, dependant on the terms of the individual employment contract:

- Participation in the profit share pool
- Commission
- Discretionary Bonus

Profit share pool – Euroz Securities

Directors and executives are invited to participate in the profit share pool. The Remuneration Committee determines the allocation of up to 40% pre-tax profit on an ongoing basis. In consultation with relevant Department Heads the Committee uses the following informal criteria to assist in the allocation:

- · Ability to perform individual tasks within the relevant department.
- Ability to add value and innovate beyond the job standard specifications.
- · Development of new and existing client relationships.
- · Ability to interact with other relevant departments as part of a larger team approach.
- Relevant industry salary benchmarking.
- General requirements to attract and retain staff.

The profit share payment is made as a combination of cash (75%) and equity (25%) in the Performance Rights Plan as detailed below in "Equity based payments".

The three executives on the Remuneration Committee (Andrew McKenzie, Jay Hughes and Robert Black, Executive Directors of Euroz Limited) are also entitled to participate in the profit share pool. In these circumstances two members assess the performance of the third member.

Commission

Private Client Advisors are paid a commission in addition to a base salary and superannuation. This is calculated on a sliding scale. Eligible Private Client Advisors are also invited to participate in the Performance Rights Plan based on certain performance hurdles set out in the employment contract.

Discretionary bonus

Executives and other staff members who do not participate in the profit share pool are paid a discretionary bonus based on the profitability of the Company. Similar to the profit share pool, the distribution of the discretionary bonus is also leveraged to the individual's performance and is made as a combination of cash (75%) and equity (25%) as detailed below in "Equity based payments".

Equity based payments

A Performance Rights Plan was established in 2014 as a long term incentive to assist in the reward, retention and motivation of Directors, executives and staff members. Eligible employees are invited to participate in this plan and are awarded a Performance right at the beginning of the year. There are three separate long term incentives depending on the individual employment contract as below:

- Profit share
- Discretionary bonus
- Commission

or the year ended 30 June 2018-

REMUNERATION REPORT (AUDITED) (CONT'D)

The Performance Right represents a right to be issued a number of ordinary shares in Euroz to reflect 25% of the profit share or the discretionary bonus that is paid to the participant. Private Client Advisors who are paid a commission may also be paid 5% of their total monthly brokerage and/or portfolio administration revenue (above certain hurdles) or 25% of corporate finance introduction fees in equity. The shares issued will only vest to the employee after 3 years subsequent service following the initial year of service.

Directors' Report (Cont'd)

For the year ended 30 June 2018

22 INDEMNIFYING OFFICERS AND AUDITOR

During the financial year, Euroz Limited paid a premium of \$337,657 to insure the Directors and secretaries of the Company and its Australian based controlled entities. The liabilities insured include costs and expenses that may be incurred in defending civil or criminal proceedings that may be brought against the officers in their capacity as officers of entities in the consolidated group. Euroz has not indemnified the auditor or paid any insurance premium on behalf of the auditor.

23. PROCEEDINGS ON BEHALF OF COMPANY

No person has applied for leave of court to bring proceedings on behalf of the Company or intervene in any proceedings to which the Company is a party for the purpose of taking responsibility on behalf of the Company for all or any part of those proceedings.

The Company was not a party to such proceedings during the year.

24. NON-AUDIT SERVICES

The following non-audit services were provided by the group's auditor, PKF Mack. The Directors are satisfied that the provision of non-audit services is compatible with the general standard of independence for auditors imposed by the *Corporations Act 2001*. The nature and scope of each type of non-audit service provided means that auditor independence was not compromised. PKF Mack received or is due to receive the following amounts for the provision of non-audit services:

Tax compliance and other services

25. AUDITOR'S INDEPENDENCE DECLARATION

The lead auditor's independence declaration for the year ended 30 June 2018 has been received and follows the Directors' report.

This report is made in accordance with a resolution of the Directors.

1. STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES

The financial report is a general purpose financial report that has been prepared in accordance with Australian Accounting Standards, other authoritative pronouncements as issued by the Australian Accounting Standards Board and the Corporations Act 2001 as appropriate for "for-profit" oriented entities.

This financial report has been authorised by the Directors to be issued on 30 August 2018. The Directors have the power to amend and reissue the financial statements.

Euroz Limited is a listed public Company, trading on the Australian Securities Exchange and Chi - X, limited by shares, incorporated and domiciled in Australia.

The financial report of Euroz Limited and controlled entities (the group or consolidated group), complies with Australian Accounting Standards and International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board.

Separate financial information of the parent Company has been included in Note 34 as permitted by amendments to the Corporations Act 2001. The financial report is presented in Australian dollars which is the group's functional and presentation currency. Amounts are rounded to the nearest dollar in accordance with Corporations (Rounding in Financial / Directors' Reports) Instrument 2016/191.

The following is a summary of the material accounting policies adopted by the consolidated group in the preparation of the financial report. The accounting policies have been consistently applied, unless otherwise stated.

Basis of preparation

Reporting basis and conventions

The financial report has been prepared on an accruals basis and is based on historical costs modified by the revaluation of selected non-current assets, financial assets and financial liabilities for which the fair value basis of accounting has been applied.

Accounting policies

(a) Principles of consolidation

The consolidated financial statements incorporate the assets and liabilities of all entities controlled by Euroz Limited ('Company' or 'parent entity') as at 30 June 2018 and the results of all controlled entities for the year then ended. Euroz Limited and its controlled entities together are referred to in this financial report as the consolidated group.

Subsidiaries are all those entities over which the consolidated group has control. The consolidated group controls an entity when the consolidated group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the activities of the entity.

Subsidiaries are fully consolidated from the date on which control is transferred to the consolidated group. They are deconsolidated from the date that control ceases.

The acquisition method of accounting is used to account for the acquisition of subsidiaries by the consolidated group.

A change in ownership interest without the loss of control is accounted for as an equity transaction, where the difference between the consideration transferred and the book value of the share of the non-controlling interest acquired is recognised directly in equity attributable to the parent.

Intercompany transactions, balances and unrealised gains on transactions between group companies are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of the impairment of the asset transferred. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the consolidated group. All controlled entities have a 30 June financial year end.

(b) Income tax

The income tax expense or benefit for the period is the tax payable on that period's taxable income based on the applicable income tax rate for each jurisdiction, adjusted by changes in deferred tax assets and liabilities attributable to temporary differences, unused tax losses and the adjustment recognised for prior periods, where applicable.

Deferred tax assets and liabilities are recognised for temporary differences at the tax rates expected to apply when the assets are recovered or liabilities are settled, based on those tax rates that are enacted or substantively enacted, except for:

- When the deferred income tax asset or liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and that, at the time of the transaction, affects neither the accounting nor taxable profits; or
- When the taxable temporary difference is associated with interests in subsidiaries, associates or joint ventures, and the timing of the reversal can be controlled and it is probable that the temporary difference will not reverse in the foreseeable future.

1. STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

(b) Income tax (cont'd)

Deferred tax assets are recognised for deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

The carrying amount of recognised and unrecognised deferred tax assets are reviewed at each reporting date. Deferred tax assets recognised are reduced to the extent that it is no longer probable that future taxable profits will be available for the carrying amount to be recovered. Previously unrecognised deferred tax assets are recognised to the extent that it is probable that there are future taxable profits available to recover the asset.

Deferred tax assets and liabilities are offset only where there is a legally enforceable right to offset current tax assets against current tax liabilities; and they relate to the same taxable authority on either the same taxable entity or different taxable entity's which intend to settle simultaneously.

Euroz Limited and its wholly-owned Australian subsidiaries have formed an income tax consolidated group under the Tax Consolidation Regime. The group formed an income tax consolidated group to apply from 1 July 2003. The tax consolidated group has entered a tax sharing agreement whereby each Company in the group contributes to the income tax payable in proportion to their contribution to the net profit before tax of the tax consolidated group.

(c) Business combinations

The acquisition method of accounting is used to account for business combinations regardless of whether equity instruments or other assets are acquired.

The consideration transferred is the sum of the acquisition-date fair values of the assets transferred, equity instruments issued or liabilities incurred by the acquirer to former owners of the acquiree and the amount of any non-controlling interest in the acquiree. For each business combination, the non-controlling interest in the acquiree is measured at either fair value or at the proportionate share of the acquiree's identifiable net assets. All acquisition costs are expensed as incurred to profit or loss.

On the acquisition of a business, the consolidated group assesses the financial assets acquired and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic conditions, and the consolidated group's operating or accounting policies and other pertinent conditions in existence at the acquisition-date.

The difference between the acquisition-date fair value of assets acquired, liabilities assumed and any non-controlling interest in the acquiree and the fair value of the consideration transferred and the fair value of any pre-existing investment in the acquiree is recognised as goodwill. If the consideration transferred and the pre-existing fair value is less than the fair value of the identifiable net assets acquired, being a bargain purchase to the acquirer, the difference is recognised as a gain directly in profit or loss by the acquirer on the acquisition-date, but only after a reassessment of the identification and measurement of the net assets acquired, the non-controlling interest in the acquiree, if any, the consideration transferred and the acquirer's previously held equity interest in the acquirer.

Business combinations are initially accounted for on a provisional basis. The acquirer retrospectively adjusts the provisional amounts recognised and also recognises additional assets or liabilities during the measurement period, based on new information obtained about the facts and circumstances that existed at the acquisition-date. The measurement period ends on either the earlier of (i) 12 months from the date of the acquisition or (ii) when the acquirer receives all the information possible to determine fair value.

(d) Revenue recognition

Revenue is recognised when it is probable that the economic benefits will flow to the entity and the revenue can be reliably measured. Revenue is measured at the fair value of consideration received or receivable. The following specific recognition criteria must also be met before revenue is recognised:

- Brokerage revenue earned from share trading on behalf of clients is recognised on completion of the transactions. That is, the day the security is traded, not the day of settlement.
- Underwriting, management fees and corporate retainers are brought to account when the fee in respect of the services provided is receivable.
- Share trading revenue from the sale of stocks in the jobbing account is recognised on the day the security is traded. Revenue comprises the gross proceeds on sale of the security.
- Interest income is recognised as it accrues.
- Dividend revenue is recognised when the right to receive a dividend has been established.

All revenue is stated net of the amount of Goods and Services Tax (GST), where applicable

1. STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

(e) Receivables

Trade receivables are recognised as current receivables as they are generally settled within 30 days from the date of recognition. Collectability of trade receivables is reviewed on an ongoing basis. Debts which are known to be uncollectible are written off. A provision for impairment is raised when some doubt as to collection exists.

All trade receivables relating to brokerage and principal trading have been transferred to Pershing Securities (Australia) Pty Ltd who provides a trust account facility as part of the clearing and settlement service.

(f) Inventories

Inventories are stocks held in the operating (house) account at year end. All inventory is held at fair value. Refer to Note 1 (u) (i) financial assets at fair value through profit or loss.

(g) Investments

Controlled entities are accounted for in the consolidated financial statements as set out in Note 1 (a), excluding investment entities (which are deemed to be controlled) which are accounted for at fair value at reporting date.

Other securities are accounted for at fair value at reporting date. Unrealised gains/losses on securities held for short term investment are accounted for as set out in Note 1 (u) (i) financial assets at fair value through profit or loss. Unrealised gains/ losses on securities held for long term investment are designated on initial recognition at fair value through profit or loss.

(h) Plant and equipment

Each class of plant and equipment is carried at cost as indicated less, where applicable, any accumulated depreciation and impairment losses.

The cost of fixed assets constructed within the consolidated group includes the cost of materials, direct labour, borrowing costs and an appropriate proportion of fixed and variable overheads.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the group and the cost of the item can be measured reliably. All other repairs and maintenance are charged to the statement of profit or loss during the financial period in which they are incurred.

Depreciation

The depreciable amount of all fixed assets is depreciated on a straight line basis over their useful lives to the residual values commencing from the time the asset is held ready for use. The depreciation rates used for each class of depreciable assets are:

Class of Fixed Asset	Depreciation Rate
Leasehold improvements	25%
Plant and equipment	25-33%

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at each reporting date.

Gains and losses on disposals are determined by comparing proceeds with the carrying amount. These gains and losses are included in the statement of profit or loss. When revalued assets are sold, amounts included in the revaluation reserve relating to the asset are transferred to retained earnings.

(i) Leasehold improvements

The cost of improvements to or on leasehold properties are amortised over the unexpired period of the lease or the estimated useful life of the improvement to the consolidated group, whichever is the shorter.

(j) Leases

Other operating lease payments are charged to the statement of profit or loss in the periods in which they are incurred, as this represents the pattern of benefits derived from the leased assets.

(k) Trade and other creditors

Trade and other creditors also include other liabilities for goods and services provided to the consolidated group prior to the end of the financial year and which are unpaid. Due to their short-term nature they are measured at amortised cost and not discounted. The amounts are unsecured and are usually paid within 30 days of recognition.

All trade creditors relating to brokerage and principal trading have been transferred to Pershing Securities (Australia) Pty Ltd who provides a trust account facility as part of the clearing and settlement service.

1. STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

(I) Dividends

Provision is made for the amount of any dividend declared and authorised by the Directors on or before the end of the financial year, but not distributed at reporting date.

(m) Options

The fair value of options in the shares of the Company issued to Directors and other parties is recognised as an expense in the financial statements in relation to the granting of these options.

(n) Employee benefits

(i) Wages, salaries and annual leave

Liabilities for wages, salaries and annual leave expected to be settled within 12 months of the reporting date are recognised in respect of employees' services up to the reporting date and are measured at the amounts expected to be paid when the liabilities are settled.

(ii) Employee benefits payable later than one year

Employee benefits payable later than one year have been measured at the present value of the estimated future cash outflows to be made for those benefits. There have been no changes to the method used to calculate this liability.

(iii) Superannuation

Contributions are made by the consolidated group to superannuation funds as stipulated by statutory requirements and are charged as expenses when incurred.

(iv) Employee benefit on costs

Employee benefit on costs, including payroll tax, are recognised and included in employee benefits liabilities and costs when the employee benefits to which they relate are recognised as liabilities.

(v) Options/performance rights

The fair value of options/performance rights granted is recognised as an employee benefit expense with a corresponding increase in equity. The fair value is measured at grant date.

The fair value of options at grant date is independently determined using the Black-Scholes option pricing model that takes into account the exercise price, the term of the option, the vesting and performance criteria, the impact of dilution, the non-tradeable nature of the option, the share price at grant date and expected price volatility of the underlying share, the expected dividend yield and the risk-free interest rate for the term of the option.

The fair value of performance rights are estimated at grant date based on expectations of the bonus that will be paid at year end to eligible employees. Each performance right is subject to a 4 year vesting condition. At the end of year 1, the performance right converts to plan shares that are subject to a 3 year service condition. The Board may, at their discretion accelerate the vesting period.

(vi) Profit-sharing

The consolidated group recognises a liability and an expense for profit-sharing based on a formula that takes into consideration the profit attributable to the Company's employees after certain adjustments.

(vii) Termination benefits

The consolidated group recognises a liability and an expense when the group demonstrates a commitment to either terminate the employee before the normal retirement date or provide termination benefits as a result of an offer made to the employee prior to retirement date.

(o) Cash and cash equivalents

For purposes of the statement of cash flows, cash and cash equivalents includes deposits at call which are readily convertible to cash on hand and are subject to an insignificant risk of changes in value, net of outstanding bank overdrafts.

(p) Earnings per share

(i) Basic earnings per share

Basic earnings per share is determined by dividing the net profit after income tax attributable to members of the Company, excluding any costs of servicing equity other than ordinary shares, by the weighted average number of ordinary shares outstanding during the financial year, adjusted for bonus elements in ordinary shares issued during the year.

(ii) Diluted earnings per share

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account the after income tax effect of interest and other financing costs associated with dilutive potential ordinary shares and the weighted average number of shares assumed to have been issued for no consideration in relation to dilutive potential ordinary shares. The potential impact of issuing treasury shares externally is considered when calculating diluted earnings per share.

1. STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

(q) Fair value measurement

When an asset or liability, financial or non-financial, is measured at fair value for recognition or disclosure purposes, the fair value is based on the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date; and assumes that the transaction will take place either: in the principle market; or in the absence of a principal market, in the most advantageous market.

Fair value is measured using the assumptions that market participants would use when pricing the asset or liability, assuming they act in their economic best interest. For non-financial assets, the fair value measurement is based on its highest and best use. Valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, are used, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

Assets and liabilities measured at fair value are classified, into three levels, using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. Classifications are reviewed each reporting date and transfers between levels are determined based on a reassessment of the lowest level input that is significant to the fair value measurement.

For recurring and non-recurring fair value measurements, external valuers may be used when internal expertise is either not available or when the valuation is deemed to be significant. External valuers are selected based on market knowledge and reputation. Where there is a significant change in fair value of an asset or liability from one period to another, an analysis is undertaken, which includes a verification of the major inputs applied in the latest valuation and a comparison, where applicable, with external sources of data.

(r) Fair value estimation

The fair value of financial assets and financial liabilities must be estimated for recognition and measurement or for disclosure purposes.

The fair value of financial instruments traded in active markets (such as publicly traded derivatives, and trading and available-for-sale securities) is based on quoted market prices at the reporting date. The quoted market price used for financial assets held by the consolidated group is the current bid price; the appropriate quoted market price for financial liabilities is the current ask price.

The fair value of financial instruments that are not traded in an active market (for example, over-the-counter derivatives) is determined using valuation techniques. The consolidated group uses a variety of methods and makes assumptions that are based on market conditions existing at each reporting date. Quoted market prices or dealer quotes for similar instruments are used for long-term debt instruments held. Other techniques, such as estimated discounted cash flows, are used to determine fair value for the remaining financial instruments.

The nominal value less estimated credit adjustments of trade receivables and payables are assumed to approximate their fair values. The fair value of financial liabilities for disclosure purposes is estimated by discounting the future contractual cash flows at the current market interest rate that is available to the consolidated group for similar financial instruments.

(s) Goods and Services Tax (GST)

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Tax Office. In these circumstances the GST is recognised as part of the cost of acquisition of the asset or as part of an item of the expense. Receivables and payables in the statement of financial position are shown inclusive of GST.

Cash flows are presented in the statement of cash flows on a gross basis, except for the GST component of investing and financing activities, which are disclosed as operating cash flows.

(t) Treasury Shares

Own equity instruments that are reacquired (treasury shares) are recognised at cost and deducted from equity. No gain or loss is recognised in profit or loss on the purchase, sale, issue or cancellation of the group's own equity instruments. Any difference between the carrying amount and the consideration, if reissued, is recognised in share-based payments reserve.

(u) Financial instruments

The consolidated group classifies its investments in the following categories: financial assets at fair value through profit or loss, loans and receivables, and available-for-sale financial assets. The classification depends on the purpose for which the investments were acquired. Management determines the classification of its investments at initial recognition and reevaluates this designation at each reporting date.

Initial recognition and measurement

Financial assets and financial liabilities are recognised when the consolidated group becomes a party to the contractual provisions to the instrument. For financial assets, this is equivalent to the date that the consolidated group commits itself to either the purchase or sale of the asset (i.e. trade date accounting is adopted).

1. STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

(u) Financial instruments (cont'd)

Financial instruments are initially measured at fair value plus transaction costs, except where the instrument is classified 'at fair value through profit or loss', in which case transaction costs are expensed to profit or loss immediately.

Classification and subsequent measurement

Financial instruments are subsequently measured at either of fair value, amortised cost using the effective interest rate method, or cost. Fair value represents the amount for which an asset could be exchanged or a liability settled, between knowledgeable, willing parties. Where available, quoted prices in an active market are used to determine fair value. In other circumstances, valuation techniques are adopted.

Amortised cost is calculated as:

- the amount at which the financial asset or financial liability is measured at initial recognition;
- · less principal repayments;
- plus or minus the cumulative amortisation of the difference, if any, between the amount initially recognised and the maturity amount calculated using the effective interest method; and
- less any reduction for impairment.

The *effective interest method* is used to allocate interest income or interest expense over the relevant period and is equivalent to the rate that exactly discounts estimated future cash payments or receipts (including fees, transaction costs and other premiums or discounts) through the expected life (or when this cannot be reliably predicted, the contractual term) of the financial instrument to the net carrying amount of the financial asset or financial liability. Revisions to expected future net cash flows will necessitate an adjustment to the carrying value with a consequential recognition of an income or expense in profit or loss.

The consolidated group does not designate any interests in subsidiaries, associates or joint venture entities as being subject to the requirements of accounting standards specifically applicable to financial instruments.

(i) Financial assets at fair value through profit or loss

This category has two sub-categories; financial assets held for trading, and those designated at fair value through profit or loss on initial recognition. A financial asset is classified in this category if acquired principally for the purpose of selling in the short term or if so designated by management. Investments held as inventories are classified in this manner. The policy of management is to designate a financial asset if there exists the possibility it will be sold in the short term and the asset is subject to frequent changes in fair value. Assets in this category are classified as current assets if they are either held for trading or are expected to be realised within 12 months of the reporting date. Investments in managed investment schemes are recognised at fair value through profit or loss on initial recognition.

(ii) Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They arise when the consolidated group provides money, goods or services directly to a debtor with no intention of selling the receivable. They are included in current assets, except for those with maturities greater than 12 months after the reporting date which are classified as non-current assets. Loans and receivables are included in receivables in the statement of financial position.

(iii) Available-for-sale financial assets

Available-for-sale financial assets, comprising principally marketable equity securities, are non-derivatives that are either designated in this category or not classified in any of the other categories. They are included in non-current assets.

Purchases and sales of investments are recognised on trade-date being the date on which the consolidated group commits to purchase or sell the asset. Investments are initially recognised at fair value plus transaction costs for all financial assets not carried at fair value through profit or loss. Financial assets are derecognised when the rights to receive cash flows from the financial assets have expired or have been transferred and the consolidated group has transferred substantially all the risks and rewards of ownership.

Available-for-sale financial assets and financial assets at fair value through profit and loss are subsequently carried at fair value. Loans and receivables are carried at amortised cost using the effective interest method. Realised and unrealised gains and losses arising from changes in the fair value of the 'financial assets at fair value through profit or loss' category are included in the statement of profit or loss in the period in which they arise. Unrealised gains and losses arising from changes in the fair value of non-monetary securities classified as available-for-sale investments revaluation reserve are recognised in equity in the "available for sale revaluation reserve". When securities classified as available-for-sale are sold or impaired, the accumulated fair value adjustments are included in the statement of profit or loss as gains and losses from investment securities.

The fair values of quoted investments are based on current bid prices. If the market for a financial asset is not active (and for unlisted securities), the consolidated group establishes fair value by using valuation techniques. These include reference to the fair values of recent arm's length transactions, involving the same instruments or other instruments that are substantially the same, discounted cash flow analysis, and option pricing methods refined to reflect the issuer's specific circumstances.

1. STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

(u) Financial instruments (cont'd)

(iv) Impairment of financial assets

The consolidated group assesses at each reporting date whether there is objective evidence that a financial asset or group of financial assets is impaired. In the case of equity securities classified as available-for-sale, a significant or prolonged decline in the fair value of a security below its cost is considered in determining whether the security is impaired. If any such evidence exists for available-for-sale financial assets, the cumulative loss – measured as the difference between the acquisition cost and the current fair value, less any impairment loss on that financial asset previously recognised in profit and loss, is removed from equity and recognised in the statement of profit or loss. Impairment losses recognised in the statement of profit or loss on equity instruments are not reversed through the statement of profit or loss.

(v) Current / non-current classification

Assets and liabilities are presented in the statement of financial position based on current and non-current classification.

An asset is current when: it is expected to be realised or intended to be sold or consumed in normal operating cycle; it is held primarily for the purpose of trading; it is expected to be realised within twelve months after the reporting period; or the asset is cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period. All other assets are classified as non-current.

A liability is current when: it is expected to be settled in normal operating cycle; it is held primarily for the purpose of trading; it is due to be settled within twelve months after the reporting period; or there is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period. All other liabilities are classified as non-current.

Deferred tax assets and liabilities are always classified as non-current.

(w) Contributed equity

Ordinary shares are classified as equity.

Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds. Incremental costs directly attributable to the issue of new shares or options, or for the acquisition of a business, are included in the cost of the acquisition as part of the purchase consideration.

(x) Impairment of non-financial assets

Goodwill and other intangible assets that have an indefinite useful life are not subject to amortisation and are tested annually for impairment or more frequently if events or changes in circumstances indicate that they might be impaired. Other non-financial assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount.

Recoverable amount is the higher of an asset's fair value less costs to sell and value-in-use. The value-in-use is the present value of the estimated future cash flows relating to the asset using a pre-tax discount rate specific to the asset or cash-generating unit to which the asset belongs. Assets that do not have independent cash flows are grouped together to form a cash-generating unit.

(y) Intangible asset

Intangible assets acquired as part of a business combination, other than goodwill, are initially measured at their fair value at the date of the acquisition. Intangible assets acquired separately are initially recognised at cost. Indefinite life intangible assets are not amortised and are subsequently measured at cost less any impairment. Finite life intangible assets are subsequently measured at cost less any impairment. The gains or losses recognised in profit or loss arising from the derecognition of intangible assets are measured as the difference between net disposal proceeds and the carrying amount of the intangible asset. The method and useful lives of finite life intangible assets are reviewed annually. Changes in the expected pattern of consumption or useful life are accounted for prospectively by changing the amortisation method or period.

Goodwill arises on the acquisition of a business. Goodwill is not amortised. Instead, goodwill is tested annually for impairment or more frequently if events or changes in circumstances indicate that it might be impaired, and is carried at cost less accumulated impairment losses. Impairment losses on goodwill are taken to profit or loss and are not subsequently reversed.

1. STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

(z) New standards and interpretations (cont'd)

The consolidated group has adopted all of the new, revised or amending Accounting Standards and Interpretations issued by the AASB that are mandatory for the current reporting period. The adoption of these Accounting Standards and Interpretations did not have a significant impact on the financial performance or position of the consolidated group.

The consolidated group believes the most significant new standards to be adopted include: AASB 9 – Financial Instruments, AASB 15 – Revenue from Contracts with Customers and AASB 16 – Leases.

The consolidated group has made an initial assessment on the impact of these standards.

Following this assessment it is concluded that AASB 9 and AASB 15 will not have a significant impact on the consolidated group's primary statements. The consolidated group will address the additional and new disclosure requirements under these standards upon adoption.

In relation to AASB 16, the consolidated group's initial assessment is based on expected operating leases in place at the date of adoption being 1 July 2019. The consolidated group's initial assessment may therefore change significantly depending on the lease arrangements in place at the time of adoption. However, based on current expectations the consolidated group believes the initial adoption of this standard on 1 July 2019 will see the recognition of a right to use asset in the region of \$5.1 million with a materially consistent liability.

The anticipated effect to the profit or loss from the adoption of the new leases standard for year 1 is expected to be in the region of decreasing expenditure recognised in the profit or loss by \$0.4 million in comparison to the current treatment.

The effect of this new standard on cash flows is nil.

Several other amendments to standards and interpretations on or after 1 July 2018 have also not been applied and the Group does not expect material impact to the annual and half year consolidated financial statements.

2. SIGNIFICANT ACCOUNTING ESTIMATES AND JUDGEMENTS

Estimates and judgements incorporated in the financial statements are based on historical knowledge and best available current information. Estimates assume a reasonable expectation of future events and are based on current trends and economic data, obtained both externally and within the group.

Key estimates and judgments

(i) Impairment

At each reporting date, the consolidated group compares the carrying values and market values of investments to determine whether there is any indication of impairment. If impairment indicators exist, any excess of the investment entity's carrying value over the recoverable amount is expensed to the statement of profit or loss.

Where it is not possible to estimate the recoverable amount of an individual asset, the consolidated group estimates the recoverable amount of the cash-generating unit to which the asset belongs.

(ii) Classification of inventories

The consolidated group has decided to classify investments in listed securities as held for trading. These securities are accounted for at fair value. Any increments or decrements in their value at year end are charged or credited to the statement of profit or loss.

(iii) Taxation

Judgement is required in assessing whether deferred tax assets and certain deferred tax liabilities are recognised on the statement of financial position. Deferred tax assets, including those arising from temporary differences and tax losses, are recognised only where it is considered more likely than not they will be recovered, which is dependent on the generation of sufficient future taxable profits. Deferred tax liabilities arising from temporary differences are recognised to the extent that there are future profits.

(iv) Goodwill

Goodwill is tested for impairment annually or more frequently if events or changes in circumstances indicate that it might be impaired. For the purpose of impairment testing, the goodwill on acquisition of Blackswan Equities Limited is allocated to private client broking cash-generating unit which represents the lowest level at which it is monitored for internal management purposes. At 30 June 2018, goodwill totalling \$2,803,345 has been allocated to the private client broking cash-generated unit. The assumptions used for determining the recoverable amount are based on past experience and expectations for the future. Projected cash flows for each cash-generated unit are discounted using an appropriate discount rate and a value in use is determined over a 5 year life. The discount rate deemed applicable at 30 June 2018 amounted to 10.29%. The Board have assessed that there is no indication the goodwill is impaired.

In addition, the goodwill on the acquisition of Entrust totalling \$5,639,200 has been allocated to the performance of this Company as a whole. The assumptions used for determining the recoverable amount are based on past experience and expectations for the future. Projected cash flows for each cash-generated unit are discounted using an appropriate discount rate and a value in use is determined over a 5 year life. The discount rate deemed applicable at 30 June 2018 amounted to 10.29%. The Board have assessed that there is no indication the goodwill is impaired.

2. SIGNIFICANT ACCOUNTING ESTIMATES AND JUDGEMENTS (CONT'D)

(v) Intangible assets

Upon acquisition of Entrust, Euroz acquired \$1,736,240 in other intangible assets consisting 3 separate client portfolios. These assets were tested for impairment. The assumptions used for determining the recoverable amount was based on past experience and expectations for the future. Projected cash flows for each cash-generated unit were discounted using an appropriate discount rate and a value in use was determined over a 5 year life. The discount rate deemed applicable at 30 June 2018 amounted to 10.29%. The Board have assessed that there is no indication these assets are impaired.

Euroz Limited and its wholly-owned Australian subsidiaries implemented the tax consolidation legislation as of 1 July 2003. The accounting policy on implementation of the legislation is set out in Note 1(b). The impact on the income tax expense for the year is disclosed in the tax reconciliation above.

The entities have also entered into a tax sharing and funding agreement. Under the terms of this agreement, the wholly-owned entities reimburse Euroz Limited for any current income tax payable by Euroz Limited arising in respect of their activities. The reimbursements are payable at the same time as the associated income tax liability falls due and have therefore been recognised as a current tax-related receivable by Euroz Limited. In the opinion of the Directors, the tax sharing agreement is also a valid agreement under the tax consolidation legislation and limits the joint and several liability of the whollyowned entities in the case of a default by Euroz Limited.

(h) Capital management

The Directors primary objective is to maintain a capital structure that ensures the lowest cost of capital available to the group. At reporting date, the group has no external borrowings and significant cash reserves. As the holder of various Australian Financial Services Licences and as a market participant of the Australian Securities Exchange the group is exposed to externally imposed capital requirements, which have been complied with at year end and throughout the year.

23. DIVIDENDS

Ordinary shares

Interim dividend for the half year ended 31 December 2017 of 1.75 cents (2017 - 1.75 cents) per fully paid ordinary share paid on 2 February 2018. Fully franked based on tax paid @ 30%	2,817,314	2,817,314
Final dividend declared and provided for at 30 June 2018 of 9.25 cents (2017 - 5.5 cents) per fully paid ordinary share paid on 6 August 2018. Fully franked based on tax paid @ 30%	14,891,518	8,854,416
Total dividends provided for or paid	17,708,832	11,671,730

Of the total dividends paid during the year, \$22,110 (2017: \$34,246) was paid to the Euroz Share Trust and is undistributed. Therefore, it has been eliminated on consolidation.

Franked dividends

The franked portions of the dividends recommended after 30 June 2018 will be franked out of existing franking credits or out of franking credits arising from the payment of income tax in the year ending 30 June 2018.

Franking credits available for subsequent financial years based on a tax		
rate of 30% (2017: 30%)	17,922,906	15,704,851

These dividends are fully-franked and therefore, there are no income tax consequences for the owners of Euroz Limited.

The above amounts represent the balance of the franking account as at the end of the financial year, adjusted for:

- (a) franking credits that will arise from the payment of the current tax liability
- (b) franking debits that will arise from the payment of dividends recognised as a liability at the reporting date
- (c) franking credits that will arise from the receipt of dividends recognised as receivables at the reporting date, and

(d) franking credits that may be prevented from being distributed in subsequent financial years.

The consolidated amounts include franking credits that would be available to the parent entity if distributable profits of controlled entities were paid as dividends.

24. FINANCIAL INSTRUMENTS

(a) Financial risk management

The group's financial instruments consist of deposits with banks, trade receivables and payables, short term investments and available for sale investments. Derivative financial instruments are not used by the group. Senior executives meet regularly to analyse and monitor the financial risk associated with the financial instruments used by the group.

(b) Financial risk exposure and management

(i) Interest rate risk

The group has no borrowings and therefore is not exposed to interest rate risk associated with debt. The group has significant cash reserves and the interest income earned from these cash reserves will be affected by movements in the interest rate. A sensitivity analysis has been provided in the note to illustrate the effect of interest rate movements on interest income earned.

(ii) Liquidity risk

The group manages liquidity risk using forward cash flow projections, maintaining cash reserves and having no borrowings or debt.

Trade and other payables are expected to be paid as follows:

	2018	2017
	\$	\$
Less than 1 month	4,637,251	3,346,290

(iii) Credit risk

The maximum exposure to credit risk, excluding the value of any collateral or security, at reporting date is the carrying amount of the financial assets disclosed in the statement of financial position. There is no collateral or security held for those assets at 30 June 2018.

Credit risk arises from exposure to customers and deposits with banks. Senior management monitors its exposure to customers on a regular basis to ensure recovery and repayment of outstanding amounts. Cash deposits are only made with Australian based banks. All trade debtors relating to brokerage and principal trading have been transferred to Pershing Securities (Australia) Pty Ltd who provides a trust account facility as part of the clearing and settlement service. Trade receivables are usually paid within 30 days.

The carrying amount of the consolidated entity's financial assets represents the maximum credit exposure.

The consolidated entity's maximum exposure to credit risk at the reporting date was:

	Carrying Amount	
	2018	2017
	\$	\$
Cash and cash equivalents	39,390,169	41,152,236
Receivables	2,181,061	1,855,645
